  To make use of work from home during COVID-19, Commissioner of Collegiate Education has issued a revised curricular plan for the time being which included google quizzes, conduction of webinars, FDPs, online classes through platforms like webex, Zoom, Google Meet and YouTube. Most of the faculty of this region is not well-versed with these online platforms. Preparations of lessons become very much effective and productive especially using power point presentation. In wake of prevailing circumstances, the webinar on the said topic was planned to make qualitative use of time and make it more productive both to the teachers and the students.

  Permission of the Principals of both the institutions was obtained. Invitation was posted on many whatsapp groups as well as mail IDs. Registration link was created through google forms and it was free of cost.

  On the day of 9/7/2020 the webinar started in time through ZOOM free version APP of cloud meetings and there was a huge response from the participants. The session was very much student friendly and the interactive session was very much productive with a variety of queries from the participants. Feedback was taken through google forms and e-certificate was generated and provided to the participants. The session went on very smoothly and the meeting exceeded 40mins time limit of free Zoom meeting and to address queries of the participants, the meeting was continued my rescheduling the meeting for another 40 minutes.
- **PROBLEMS ENCOUNTERED**: As it was the first attempt of arranging a webinar, simple technical issues like allowing of screen-sharing of resource person faced a bit problem. Also, unmuting those who raised hands for queries was also delayed a bit.
- **OUTCOME OF THE WEBINAR**: The participants expressed satisfaction through feedback form, chat box as well as through speech and requested to take up one more webinar exclusively on Power Point Presentation.

CONCLUSION: A very good experience for taking up such more effective and impressive webinars with better topics in near future. Zoom premier version may be more useful .
