WOMEN EMPOWERMENT CELL

2017-18

The women Empowerment Cell was established in the college in 2008 with the noble objective of uplifting women in all aspects. According to Dr. B.R Ambedkar Gender equality, gender main streaming, leaderships, financial freedom, women education are the essential aspects of women empowerment. The vision of Dr. B. R Ambedkar will turn into reality only when a woman is educated and empowered.

Larger segment of the women population in India are underprivileged, illiterate, exploited and deprived of basic rights of social and economic spectrum. Their condition and position can be improved, when they are empowered. Empowering women with the help of laws, education and employment will make the society to accept the women as an equal gender like male

Hence Women empowerment Cell creates a platform for women and encourages them to participate actively in curricular and co curricular activities along with other gender sensitization programmes specially designed for them.
