Online National Level e-Poster Competition

On

“Environmental Influences and Biodiversity”

Organized by

Department of Botany & Zoology

Under the Aegis of

Internal Quality Assurance Cell (IQAC)

Conveners

K. Vijaya Kumar

Assistant Professor

HOD, Department of Botany & IQAC

Coordinator

K. Ravi Kumar

HOD, Department of Zoology

Chief Patron

P. Ramachandra Rao

Principal (FAC)

Co-Convenor

G.Veeranna

Assistant Professor

HOD, Department of Chemistry

About Online National level e-poster Competition:

Biodiversity the diversity of life on Earth is essential to the healthy functioning of ecosystem. Habitat loss and over exploitation, driven by our rapid population growth, are the primary causes of biodiversity loss which is now happening up to ten thousand times faster than for millions of years before. IPBES 2019 report states that one million species are now at risk of extinction and according to IUCN Red list of threatened species 25% mammals, 34%conifers, 13% birds and 27% crustaceans are threatened with extinction. Due to endless production of green house gasses we are headed for a 3°C warmer climate. Pollution disturbs the natural behaviour of many species of plants and animals. Diversity of organisms in the soils allows nutrient recycling. Biodiversity also allows plants to be pollinated by different types of insects.

As U.N. declared Biodiversity decade 2011-2020 is going to end leading to transition phase for the start of other new pivotal biodiversity decade for the period of 2021-2030 awareness on issues of Biodiversity still is on focus. U.N. proclaimed May 22 as the International Day of Biological Diversity (IBD) to increase

understanding and awareness on biodiversity issues and celebration of Biodiversity Week from *18th to 22nd May 2020*. On this backdrop we invite students from all disciplines to participate in the National level on line e-Poster competition on "**Environmental influences and Biodiversity**"

The main focus of this e-Poster competition is to bring awareness on value of biodiversity and impact of climate change on Biodiversity. Students (UG/PG/Scholars) of all disciplines best utilize the COVID-19 Lockdown time and share your ideas through e-Poster.

Advisory committee:

Dr.M. Madhusudan Rao. M.Sc.,Ph.D

Reader of Botany (Retired)

Dr.M. Estari M.Sc.,Ph.D Assistant Prof of Zoology
Kakatiya University,Warangal

Dr.P. Muralidhar Reddy M.Sc.,Ph.D,Assistant Prof
of Chemistry,Osmania University,Hyderabad.

About College:

J.V.R Government College was established in 1976 is one of pioneering institutions in Telangana that made a lasting impression in higher education.
