**NALGONDA DIST.**

---

## **MAINTENANCE AND UTILIZATION OF PHYSICAL, ACADEMIC AND SUPPORT FACILITIES - LABORATORY, LIBRARY, SPORTS COMPLEX, COMPUTERS, CLASSROOMS ETC.**

The college initially functioned in the premises of Government Junior College (Boys), Devarakonda. The college then shifted to their own premises in the year 1995-96. The college remains ever grateful to the Devarakonda Vidya Committee headed by Late Sri Munagala Kondal Rao, Sri Palla Venkat Reddy and others which acquired 15 acres of land. Late Sri Pagidimarri Chandramouli donated another 5 acres of land in which 10 classrooms were constructed by Devarakonda Vidya Committee in the year 1995-96. Later in the year 2000 with the contribution of Sri Alampally Narsimha under Janma Bhumi Scheme six more classrooms were constructed in the name of his parents. In the year 2001 another six classrooms were constructed in the upstairs with the Local Area Development Funds of the MP Sri Gutha Sukhendar Reddy. A spacious building for the library with separate reading room, reference section and an e-classroom attached was constructed with the funds of the then MP Sri Suravaram Sudhakar Reddy and state budget. The college takes pride in having such a big library, perhaps the biggest in any government degree college in the state. At the crest of other academic facilities the college also has the honor of having a spacious assembly hall which can comfortably accommodate around 600 audiences that was constructed with the funds of the then and also present MLA Sri Ramavath Ravindra Kumar and state budget. Further, in the year 2002, four new rooms were constructed with the MPLAD funds of Sri Dasari Nagabhushan Rao and the state budget. An administrative block and two computer laboratories were constructed with the state budget in the year 2013. An exclusive chemistry block has been constructed in the year 2015 with the UGC and State Government funds. Fr. Raphael of Sanjeevani Charitable Trust donated Rs. 7.00 lakhs for the construction of restrooms for women students and staff in the year 2015. Implementation of RUSA Scheme the government sanctioned RUSA funds as per the guidelines of RUSA 2.0 in the year of 2018. Six new rooms are under construction in that scheme.

The following is the complete list of infrastructure available in the college.
