The college has been catering to their needs - to educate them for better life, and to empower them with employability skills for independent living. Catering to diversity of the educational needs and feedback from surrounding villages, the Institution makes a constant effort to provide value based education to the students in an educationally backward area. Most of the parents are uneducated and there is dire need of serious responsibility on the Institution to curb these negative traits and to motivate the students towards obtaining a successful career.

The college focuses on learner autonomy and self-sustainability. Hence the college lays emphasis on the flexibility of curriculum and student-centered teaching methods to give them problem-solving skills, participative learning and experiential learning.
