Very good teaching

Overall super but I think clean our college and water important thing

Ask group of student and make subject wise survey. Few teach extraordinarily few teach worstly and irresponsibly. Seminars of few subjects will be like a photo shoot or like a skit making. Don't you ask about labs, few departments don't have a lab, the labs don't have required apparatus. First of all college doesn't have required number of classrooms. What about minimum needs of students in survey, we don't have regular drinking water and good toilets for students and staff too all the sanitation was broken and leaking taps. There is no proper security, some strangers gangs will come and beat some one and go like in movies. Few students are used to smoke and take drugs in college they drink alcohol and come to college. There is no proper gardening in college they will plant them but don't care them, there is no arrangement of protection for them or watering them.

Give material for understanding thoroughly
