But many students with high academic interest belonging to economically backward communities join this institution. Most of our students come from rural background with most of illiterate parents. These students cannot afford to go for coaching institutes at farer places. Hence to provide an outreach program to such quick learners and other students and facilitate them achieve academic excellence, this program of "Students Excellence" is started as a best Practice from 2013-14. Since the program is being implemented continuously. This is planned to provide extensive academic assistance to the students apart from regular teaching. Exposure to the outer competitive world will be given to students to achieve higher goals in life. Opportunities are created and made known to the students by making them interact with people who excelled in life. Students are exposed to various life situations so as to decide a right path of their choice themselves. Paper Waste Reduction: Encouraged everybody in the office to edit on computers before printi digitally. Use both sides of a paper. Use small paper pieces for short memos. Consider not using rid of needless reports and reduce report sizes.
