

Best practices- 1

1) Title of the practice : Mentor & Mentee System

2) Objectives:

- The objective of mentoring is :
- To closely monitor the progress of the mentees.
- To know the socio-economic background of the mentees and motivate them to achieve the objectives of their life.
- To help the mentees to overcome their weakness and help them to strengthen their capabilities.
- To mould them as responsible citizen by maintaining discipline in the college.
- To achieve the vision of the institution, to develop all round personality of the mentees on progressive lines.
- To provide a continuous learning process for both the mentor and mentee.
- To share their individual problems with the mentor and guide them involving all academic and social activities.
- To establish the mentor as a role model and to support the mentee for personal and academic development.
- To establish a vibrant relationship between the mentor and the mentees that will ensure their responsible behavior and discipline.
- To promote the equality among the mentees.

3) The context:

The nature of the student's background catering to different socio-cultural and economic diversity necessitates mentoring being opted as one of the best practices by the institution. The absence of institutionalized system of having proper system of mentoring, guidance and counseling in the region along with the obvious fact that most of the students are from rural areas and first generation learners, makes it imperative on

the part of the institution to provide mentoring guidance for all- round development of the students on academic as well as aesthetic lines. Moreover, it is aimed to align with the institutional mission and vision statement aiming to develop students and progressive lines to imbibe in the student's rational positive outlook towards life thereby making them responsible citizens.

4) The Practices:

- Mentor- Mentee meeting is conducted every Saturday from 3:00 PM to 4:00 PM on a regular basis. The session is compulsory for every student's to attend the meeting.
- Mentors are assigned 40 mentees for the whole duration of academic year.
- The mentoring parameters are based on four aspects i.e. academic, attendance, career and general.
- Mentors are provided with details of mentees performances in terms of academic and attendance records. The mentor also keeps track of the mentee's personal development such as co-curricular activities, discipline and career related family issues.
- The mode of communication between the mentor and mentee can be established through different modes namely- In-person, and Phone.
- The grievances of the mentees are taken up by the mentor and if necessary it is forwarded to the principal for necessary remedial actions.

5) Evidence of Success:

- Improvement in mentees discipline, interaction, attendance and communication skills.
- It is possible to mentor to resolve personal issues of mentees.
- Mentor would become part of their mentees family.
- Establishment of a vibrant relationship between mentor and mentees which have provided a congenial atmosphere in the classroom as well as in the college.

6) Problems encountered and resources required:

- Mentor can't resolve financial constraints of mentees because the institution is dependent on grants; financial assistance may not be possible in all the situations.
- There is a lack of guidance if mentor cannot study socio background of mentees.
- Sometimes mentors may face counseling problems with mentees family.

Best Practices –II

1) Title of the Practice: Green Practices

2) Objectives of the Practice :

Nature is integral part of human beings because development of nature and green atmosphere is depending on mankind. There is a strong bond between nature and mankind. Survival of mankind without nature is impossible. Nature has the ability to protect us and also offers a protective layer which guards us against all kinds of damages and harms.

- The main aim is to establish green atmosphere in a healthy environment.
- To promote ecological balance in the nature.
- To guide the students plant trees equal to the population.
- Uplift the quality of environment through active planting.
- To create environmental awareness among the students.
- To enhance existing greened areas in the environment.
- To organize events like World Environment day, Swachha Bharath , Clean & Green and Haritha Haram to encourage the students to save environment.
- To establish a good relationship and development of eco –friendly system.
- To ensure more plantation of different fruits and other useful plants & trees.
- To enhance the values of plants & environment among the students.

3) The Context :

The very noble objective of “Plantation programme” is to save and protect the environment by plantation work” with under given points:-

- To rising up the level of the student thinking regarding plantation work.
- To ensure the sincerity of the students regarding the values of trees & plants.
- To inculcate the programme of plantation can change the heart & hobbies of students to produce more oxygen.
- For the maintenance the cycle of the nature for up-gradation of the environment.

4) The Practice:

It is very crucial to plant many trees, herbs and climbers because these are the carriers of rain and cloud. Only the nature has capacity to turn up the balance of nature to produce oxygen, but it is only possible when our surroundings are full of trees and plants. Such type of programme is only possible when our new generation become sincere and active towards plantation programme. If our programme of plantation makes the points of success, It is sure and certain that our nature will be in balance and the life of the people can be happy & prosperous. So, we should plant many trees and protect them for the future of new generation. The Telangana state government has launched “Telangana ku Haritha haram” which is a massive plantation campaign observe every year in the state. Our institution took it as inspiration and plantation is observed on that day.

5) Evidence of success :

It is the result of program that more than 80% of student are actively take part in the program of the “plantation” by NSS/NCC units of our college. They are inspired to go quickly on the path of the plantation for balance the nature and up-gradation of environment. As soon as possible 1600 plants have been distributed to all the

NSS/NCC units our college for plantation in the college campus , now we are hoping that after this raining session these planted trees will provide as feelings of true nature and beauty of the nature.

6) Problems encountered as resources required :

As we face some problem when we encounter this kind of massive initiative program, some students are not interested in to participate in the plantation programme under the guide ship of chief guest and advice of our principal/ faculty members ultimately they agreed for the plantation work and realized the value of importance of the nature and environment. With the help of smooth functioning of NSS/NCC units of this institution volunteers are advised for a massive plantation campaign wherever they like most in the college campus.
