Quality Policy

The college has devised the quality policy with the sole objective of becoming an institution of eminence in providing best services.

Quality policy of the college has its source in the vision of the institution. The college makes sure that the best of services to all its stakeholders are ensured everytime, on time. To endow this the college strives to impart skill oriented, Value based, affordable, entrepreneurship oriented, and quality education. To bestow the above on its primary stakeholders the college had always tried to find its relevance in the society which surrounds it. To achieve the above goal of quality services the college always empowers its employees to hone their skills. The college believes that the best way to transform a society for good is only possible by empowering its primary stakeholders and this could be achieved through feedback only. So the college believes in Kaizen philosophy which states that quality continuum is never ending. The college will adopt the best of environmental friendly policies. The state- of-the-art technologies will be adopted. This will ensure that the students and employees alike will compete with the rest of the world's counterparts. The institution will always strive to bestow the best possible education so that the students who leave the institution will be empowered to face the world with equipped skills, entrepreneurship orientation, value driven, skill equipped person whose contribution to the society is at large.

Values

The institution recognized significance of values. They are guiding principles and monitor every quality aspect of the institution as their origin lies in vision and mission. They act like moral compass in smooth course of the institution in its journey towards eminence on the road called success. The institution has recognized values and categorized into the following types.

- ❖ Respect: Towards fellow human being, creatures and environment.
- ❖ Social ethics: Honesty, integrity and respect in learning and applying concepts/principles in life.
- ❖ Moral values: They include intellectual, physical, spiritual, ethical and social values.
- ❖ Humanitarian attitude: This value includes acknowledging wisdom in others and inculcation of the principal of humility. This also includes appreciation of environment and taking the responsibility to protect it.
- ❖ Equality: The institution beliefs in equity and equality. This helps us treat all students equally and modify our teaching methods to suit learning of students with various intelligences.

Besides the above-mentioned values, the institution also honours and practices constitutional values.
