CRITERION I – CURRICULAR ASPECTS

1.1 – Curriculum Planning and Implementation

1.1.1 – Institution has the mechanism for well planned curriculum delivery and documentation. Explain in 500 words

Our college has an effective mechanism for curricular delivery and documentation. As we are affiliated to Osmania University, we follow the Almanac provided by the University at the commencement of each semester. Academic Calendar and Institutional Plan is prepared keeping in view the Academic Calendar provided by the Commissionerate of Collegiate Education. We try to impart Quality Education depending upon the resources and potentiality of our institution. Each lecturer prepares an Annual lesson plan based on the curriculum provided by Osmania university. A lesson plan includes course outcomes, course objectives, the contents and topics, reference books and the expected outcomes from the students. It provides us an insight on how classes are handled in the academic year. Each Department prepares their own Annual Action Plan based on the curriculum provided by Osmania University for both theory and practical. The department heads prepare the Plan incorporating various co-curricular and extra-curricular activities. The feedback from the students and other stake holders are collected periodically with regard to the curriculum design and the suggestions given are communicated to the curriculum designing authority through regular Board meetings. The Time Table committee prepares the time table at the onset of academic year which is abided by all the teachers. The curriculum framed by the University is followed and completed well within the stipulated time. It includes Discipline Specific Courses (DSC), Skill Enhancement Courses (SEC), Ability Enhancement Compulsory Course (AECC), General Elective (GE), and Discipline Specific Elective (DSE) in the three year

undergraduate CBCS course of study. The Principal conducts regular staff meetings to assess the completion of syllabus and review the implementation of departmental action plans and activities. The faculty keeps themselves abreast of latest developments in their subjects by attending refresher courses, orientation programmes, workshops and seminars organized by universities and colleges in their respective subjects. Study tours, field visits and guest lectures are organized from time to time to make the teaching - learning more effective. The college gives prime importance to ICT infrastructure and have enriched all the departments with computers, internal connectivity, projectors in a few labs, smart classrooms and computer labs. Bridge course is imparted to students if they are from other mediums or of different stream. Remedial coaching is given to slow learners. Examination timetable is communicated to the students as soon as it is declared by the university. Revision of syllabus, practical exams give the students required impetus to excel in exams. Result analysis is done by respective departments at the time of declaration of results. Teaching Plans, Teaching diaries are tacit documentation methods for effective curricular delivery.

1.4 – Feedback System

1.4.1 – Whether structured feedback received from all the stakeholders.

Students	Yes
Teachers	Yes
Employers	No

Alumni	Yes
Parents	Yes

1.4.2 – How the feedback obtained is being analyzed and utilized for overall development of the institution?
(maximum 500 words)

Feedback Obtained

Feedback is collected from students, alumni, parents and other teachers through both formal and informal mechanism. Through formal mechanism a questionnaire is prepared and given to the students and the end of each semester and feedback is obtained and analyzed. However, an indirect feedback is also received from them through informal discussions, meetings. Through the feedback thus received, the students can become more involved, responsible and sincere and develop a sense of belonging to the organization if they are given a chance to directly participate in the process. Students 'response helps the college in general and the teaching faculty in particular in understanding their requirements, keeping the courses and course contents up to the mark and also fulfilling their learning teaching demands. Therefore, it has been using a feedback system to collect the students' feedback on various aspects of teaching learning and curriculum designed by the university. The Assessment is done based on the feedback collected from the students, other teachers, parents, principal and alumni. The feedback is collected and analyzed at the end of every year / each semester. Feedback is obtained from the stakeholders on the curriculum on a regular basis and discussed in Annual departmental meetings. Student feedback is obtained for every course offered in a year and semester. The teachers are regularly counselled by the Head of the Institution in staff meetings for making teaching learning more effective. The Student Advisory Committee formed each year is regularly in touch with the students and interact with them on their general academic issues. Alumni regularly visit the college and provide feedback on the Quality of degree programs offered. Regular feedback from the stake holders gives an insight regarding the necessary changes required within the existing syllabus as well as up - gradation of the curriculum according to current Industry demands. All the courses were revised as per UGC Guidelines and major and significant changes were made with the introduction of CBCS during the year 2016 - 2017 by Osmania University. Keeping in view the curricular pattern in the new CBCS mode, necessary arrangements for teaching and for co curricular and extracurricular activities have to be made. Most teachers expressed that the syllabus in the programme/courses, designed by Osmania University is quite satisfactory and relevant to the present times. The Units/chapters in each course is planned meticulously and taught within six months in a semester. Innovative methodologies of teaching are used in the classroom. Students are encouraged to participate in MANA TV T-SAT live programmes organised by CCE. Teachers also encourage students to participate in Jignasa study projects, student assignments, surveys, field trips and Group Discussions. Mentor-mentee system helps in academic counselling and in improving their educational status and also in the personality development of students.

6.2.1 – Quality improvement strategies adopted by the institution for each of the following (with in 100 words each):

Strategy Type	Details
Curriculum Development	Government Degree College for Women, Hussainialam is an affiliated college under Osmania University. Hence the college on its own cannot develop any curriculum, but at the same time certain departments run certificate courses to augment the curriculum and improve the skills of the students. There is scope for students to opt for inter-disciplinary courses.
Teaching and Learning	The staff are all well versed with all the modern ICT techniques. The college follows the academic calendar given by the University. The college then prepares its own academic and institutional plan keeping the CCE Almanac in focus. Students' seminars, class room assignments, projects and role plays and other competitions are conducted. Remedial coaching is given to the students when needed. The faculty is encouraged to attend orientation programmes and refresher courses.
Examination and Evaluation	The college examination and evaluation system is according to the rules framed by Osmania University. Semester exams are conducted at the end of each semester. Valuation camps are organized by the University and results are declared within 1-2 months. Evaluation at the college level is done for 20 marks through internal exams and marks are posted online in the university website. Continuous assessment is also done through assignments, tests and other activities. Examination Branch and Examination Committee looks after all the examination related works. Question Papers are downloaded online half an hour before the exam and distributed to the students.
Research and Development	Faculty are encouraged to apply for various research programmes under UGC. They are also encouraged to write

	papers in seminars/conferences and publish papers in reputed journals. The office of the Commissionerate of Collegiate Education conducts Jignasa programme for the students in which Study Projects are called for from the students all over the state.
Library, ICT and Physical Infrastructure / Instrumentation	A new library building is being constructed. ILMS Software NewGenLib and NLIST are used for efficient ICT resources usage. Upgradation of existing building is done by constructing third floor.
Human Resource Management	The College is a government degree college, hence HR recruitment and evaluation is done by CCE. The faculty update their knowledge and teaching skills by joining workshops and training programmes.
Industry Interaction / Collaboration	Under TSKC students are invited to attend orientation programmes, trainings and workshop and are mentored by industry. The college has also signed MoUs with various organizations.
Admission of Students	Admissions are only through DOST online portal which is common to all the colleges in the state. The entire process is conducted with utmost transparency.

7.2 – Best Practices

7.2.1 – Describe at least two institutional best practices

BEST PRACTICE - 1

1. Title of the Practice Haemoglobin Estimation for I Year Students

2. Goal of the Practice Many of the students who are admitted in our college come from economically backward sections of the society. They do not have proper resources to have balanced nutritious food. These young girls are generally anaemic. Our goal was to identify these anaemic students and guide them to increase iron content in their blood and lead a healthy life.

3. The Context The first year students who join our college belong to economically backward sections of the society. Most of the time they do not take healthy nutritious food or are not aware of the benefits of consuming balanced meals.

4. The Practice Many of these young girls suffer from iron deficiency and are anaemic. They often have general fatigue, weakness, pale skin, shortness of breath, brittle nails and lose concentration. Hence Department of Microbiology resolved to identify anaemic students. Haemoglobin Estimation was done for I year students. Anaemic students were identified and they were counselled and guided to have iron-rich diet to increase their haemoglobin level.

5. Evidence of Success After six months again haemoglobin estimation was done for these students. Haemoglobin content was found to have increased for them. The students were able to lead and maintain a healthy and balanced life.

6. Problems encountered and Resources required It was difficult to do Haemoglobin Estimation for all the first year students. More number of staff and test equipment will be required to take up the exercise for all first, second and final year students.
